With six months to go before the trade fair starts, it is clear that IE expo China is continuing to expand, and is doing so at a rapid pace. Asia's leading trade fair for environmental technologies will be growing again with the addition of three trade fair halls. In total, the organizers are planning to have more than 120,000 square meters of exhibition space for the 2018 event being held from 3 to 5 May on the grounds of the Shanghai New International Expo Centre (SNIEC).

"We are responding with the extended space to the great demand on the part of the exhibitors," as Katharina Schlegel, Project Director for the IFAT trade fairs abroad at Messe München explains. "Thanks to the additional halls E5, E6 and N1 we can now give more companies the opportunity to take part in IE expo China." The trade fair will be spread over a total of 12 exhibition halls, showing solutions for water, waste, air and soil.

Interested parties have until March 4, 2018 at the latest to opt for individual participation in IE expo China. Registration documents are available at <http://ie-expo.com/exhibitors/Application>. Joint pavilions by various countries and regions are also planned.
